

City Mile results note

There were problems with the timing system at the February 25 City Mile. These problems primarily affected Heats 5-8, although lane 2 was impacted in some heats.

The result of the timing system problems in those heats is that there were absolutely no pad touches recorded and very few button times. Watch times were used and referee order of finish was used to validate those times.

If you see your name in these results with only a final time and no splits, it means there were no pad touches recorded for your swim and thus no splits.
